EXPAND YOUR BUSINESS

LUXEMBOURG

Your launch pad for business in Europe

10

good reasons
to choose
Luxembourg

Globally connected economy

At the centre of
the EU market

1

Luxembourg stands out for its open economy, central European location and highly international workforce. The country is well positioned for business expansion across the EU market.

Testbed for innovative products

Research
partnerships,
full-scale living lab

2

With its manageable size, diverse population and openness to innovation, Luxembourg is the ideal testbed for carrying out product localisation, testing and certification for different EU markets

Pro-business policies

Accessible decision makers supporting innovation

3

Luxembourg is renowned as a secure and reliable hub for cross-border business activities, with a government focused on making it easy for companies, large and small, to thrive.

Thriving start-up community

Where international
entrepreneurs are
seen and valued

Luxembourg offers an agile environment for international startups seeking European market access. It differentiates itself from other larger hubs by offering personalised support to each startup.

**Reliable
data hub**

Reliable
data hub

5

Luxembourg is building a marketplace that combines robust data protection with access to world-class technologies, creating a springboard for data-driven innovation in the European market.

International talent pool

Skilled,
multilingual,
multicultural

6

Luxembourg's international workforce stands out for its language skills and high level of education. This is a significant asset for companies targeting European and global markets.

Your long-term home

Solid economy,
stable society

Renowned for its strong financial and economic performance, sustained job creation and social and political stability, Luxembourg provides a favourable environment for businesses.

Logistics and supply chain hub

Multimodal
and digital

Luxembourg is a competitive intercontinental logistics hub for value-added logistics activities. The country offers advantages for exports, imports, e-fulfilment and digital supply chain management.

Business incentives and support

Acceleration,
loans and grants

Companies that establish a sustainable presence in Luxembourg can benefit from public funding programmes for R&D, innovation, startup acceleration and market expansion.

**Great
place
to live**

Green, safe
and fun

10

A truly cosmopolitan country with a long tradition of welcoming residents from abroad, Luxembourg offers an excellent quality of life for both natives and expats.
